ELECTRICIAN SCISSORS

For protection against inadvertent shock when working on circuits up to 1000V.

| Product Code | Length (inches) |
|--------------|-----------------|
| SC127V | 5 |

Features

- Single layer coating (only red coating)
- Small groove in the blade for stripping cables
- 2" cutting length
- Guard to avoid fingers touching the metallic part by mistake

| Product Code | Length (inches) |
|--------------|-----------------|
| SC150NGV | 6 |

Features

- 2 layer coating: Red: safety. Yellow: danger
- Finger stops in both legs to avoid fingers touching the metallic part by mistake
- The longer handle allows to apply less force to cut a certain wire
- 1-1/2" cutting length

1000V ELECTRICIAN KNIVES

For protection against inadvertent shock when working on circuits up to 1000V.

| Product Code | Description |
|--------------|---------------------------|
| 2820VP | Knife with Straight Blade |
| 2820VPC | Knife with Curved Blade |

Features

- 3 layer coating insulation with different colors plus a 4th one in black to further protect handle edges. Red: safety. Orange: danger. Yellow: high danger
- Available in straight and curved blade versions

| Product Code | Description |
|--------------|------------------|
| 2820VHELP | Knife with Guide |

Features

- Insulated 1000 V knife with guide.
- Single layer, injection molded, with protection cap
- Special blade with cable guard show for cable dismantling
- Stainless steel blade; handle shock resistant plastic

1000 V TWEEZERS

For protection against inadvertent shock when working on circuits up to 1000V.

| Product Code |
|--------------|
| 2820VTEE |

Features

- Double layer coating - red layer indicates safety, yellow layer indicates danger, plus a 3rd one in black to further protect handle edges.
