

2820VTEE
General Purpose Insulated Tweezers
150 mm

PRODUCT DETAILS

- Dip-coated insulation
- 2-layer safety colour code insulation
- For working on live equipment up to 1000 V according to IEC 60900
- 2 Multi-layer coating with different colours indicating safety or danger
- This provides protection as well as creating a visual warning system
- If the outer insulation layer gets damaged, the lighter colour underneath will become visible and warn the user
- Each and every tool is tested to 10.000V for 10 seconds at the end of the manufacturing cycle

IEC60900 1000V
