

ELECTRICIAN SCISSORS

For protection against inadvertent shock when working on circuits up to 1000V.

Product Code	Length (inches)
SC127V	5

Features

- Single layer coating (only red coating)
- Small groove in the blade for stripping cables
- 2" cutting length
- Guard to avoid fingers touching the metallic part by mistake

Product Code	Length (inches)
SC150NGV	6

Features

- 2 layer coating: Red: safety. Yellow: danger
- Finger stops in both legs to avoid fingers touching the metallic part by mistake
- The longer handle allows to apply less force to cut a certain wire
- 1-1/2" cutting length

1000V ELECTRICIAN KNIVES

For protection against inadvertent shock when working on circuits up to 1000V.

Product Code	Description
2820VP	Knife with Straight Blade
2820VPC	Knife with Curved Blade

Features

- 3 layer coating insulation with different colors plus a 4th one in black to further protect handle edges. Red: safety. Orange: danger. Yellow: high danger
- Available in straight and curved blade versions

Product Code	Description
2820VHELP	Knife with Guide

Features

- Insulated 1000 V knife with guide.
- Single layer, injection molded, with protection cap
- Special blade with cable guard show for cable dismantling
- Stainless steel blade; handle shock resistant plastic

1000 V TWEEZERS

For protection against inadvertent shock when working on circuits up to 1000V.

Product Code
2820VTEE

Features

- Double layer coating - red layer indicates safety, yellow layer indicates danger, plus a 3rd one in black to further protect handle edges.
