The industry leader in space storage and utilization products!

ONE DECISION • INFINITE SOLUTIONS

Equipto - is ready to become your partner in space storage and utilization products!

Recognized for innovation, quality and service, Equipto storage equipment is proudly manufactured in Tatamy, PA. Equipto's employee philosophy is to make it as simple as possible to do business with them.

It all began in 1907, when Thomas M. Dunham began developing motorcycle headlights and sidecars in Aurora, Illinois. With the increase in automobile production, motorcycle parts soon were not in such high demand, so Equipto began producing body parts for Ford Motor Company's Model T Chassis. As the relationship with the car industry flourished, Dunham began hearing other needs within the automotive industry. One car dealer needed heavy-duty shelving to store large, heavy car parts and the idea for space storage and utilization was born.

As the company continues to be innovative, new products and systems are constantly being designed and brought to the market. Equipto can be your single source for the largest offering of Innovative Storage Solutions. Products we proudly manufacture include: Shelving and Racks, Modular Storage Cabinets, Small Parts Storage Systems, Mobile Aisle Storage Systems, Platforms and Mezzanines, Stairways and Crosswalks, Workcenters and Workbenches, Storage Cabinets, Transport Carts, and Military Storage Systems. Equipto manufactures a high quality product for which we proudly stand behind and provide a limited lifetime warranty.

After more than 100 years, Equipto's customer base reaches across the U.S. and into many markets. As Equipto continues to grow and introduce new product lines, customers can expect the same innovation and quality that has made Equipto what it is today:

“The industry leader in space storage and utilization products!”

V-Grip™ Shelving

At the heart of Equipto's engineered space solutions is V-Grip, an industrial shelving system design that is unmatched in structural integrity and provides the industry's broadest selection of accessory components to meet virtually any application.

- V-Grip upright posts have an exclusive triangular design that maximizes load-bearing capability while providing a smooth front surface without unsightly holes or hardware.
- Combine V-Grip components to meet specific applications:
- Heavy duty steel shelves
- Wire shelves for better flow of light and air
- Versa rack shelf beams accommodate wood, wire or steel shelves
- Modular drawers in 48 different sizes with a capacity of 200 or 400 lbs.
- Use full or partial height dividers to create custom storage bins
- Bulk rack options including solid or wire shelves with spans up to 8 feet and capacities up to 3400 lbs. per level
- Reflective white back and end panels
- Consult Equipto Inside Sales if you are in a seismic zone

Multiple connected V-Grip shelving units are shown below.

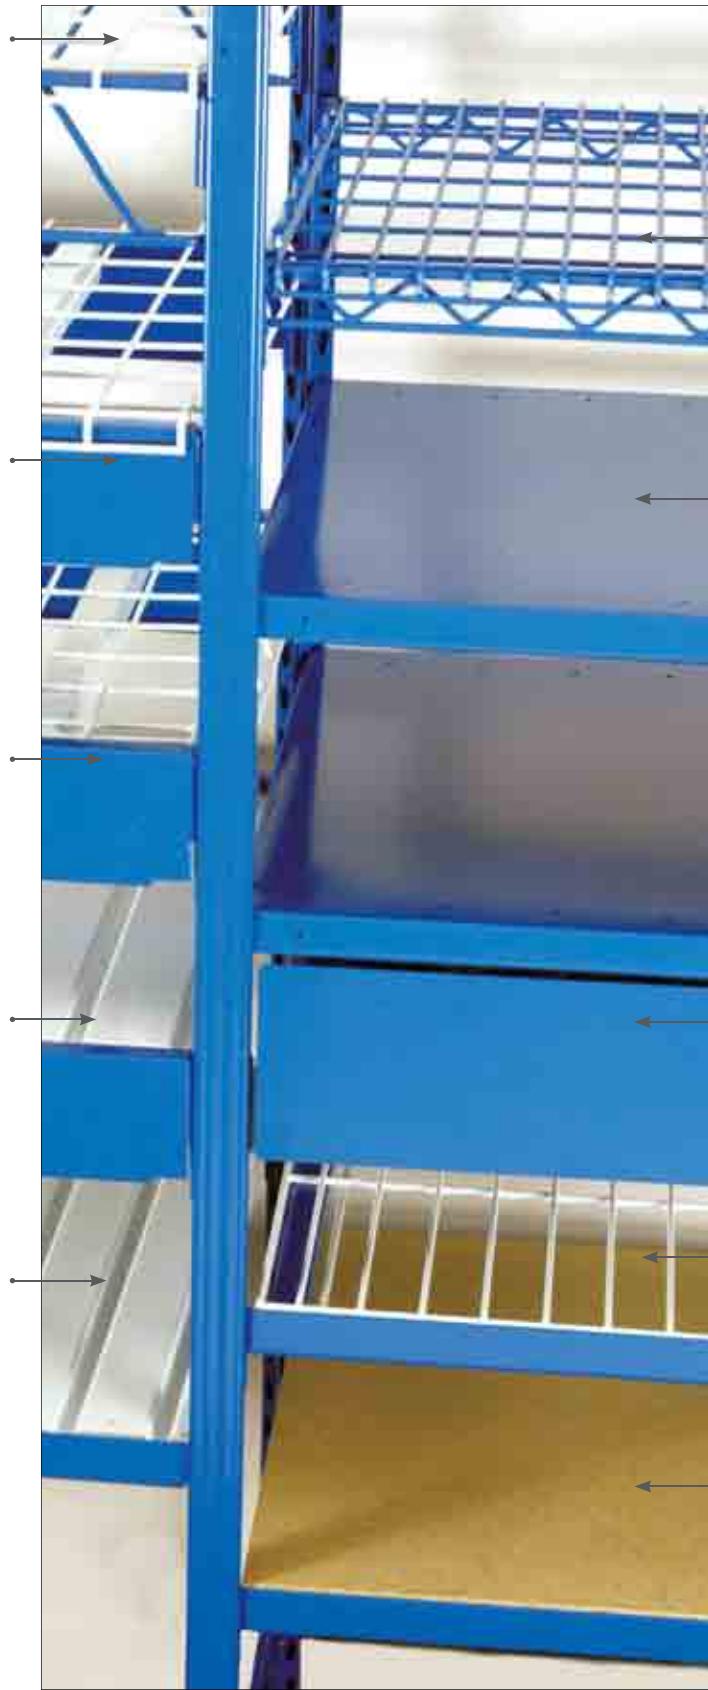

A standard color chart is available at the beginning of each section with a more detailed one on page 141.

V-Grip™ Shelving features the most efficient fastening principle known:

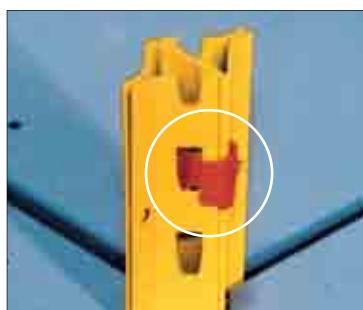

Corner shelf reinforcements with extruded studs insert easily into tapered slots in uprights. Shelf corner drops firmly over corner reinforcement and seats itself. Four-way, crossed tension minimizes deflection, and imparts superior strength and rigidity to the unit.

Double-flanged V-Grip uprights allow easy side-by-side assembly of shelving in rows, with the strongest configuration. Each flange of the upright supports a shelf from one adjoining unit only.

Heavy duty V-Grip shelves are constructed of 18-gauge steel, and double-flanged on all four sides for maximum strength and firmness.

Common upright clamp provides back-to-back reinforcement.**

Optional drawers maximize cubic density in V-Grip shelving.

Versatile V-Grip uprights

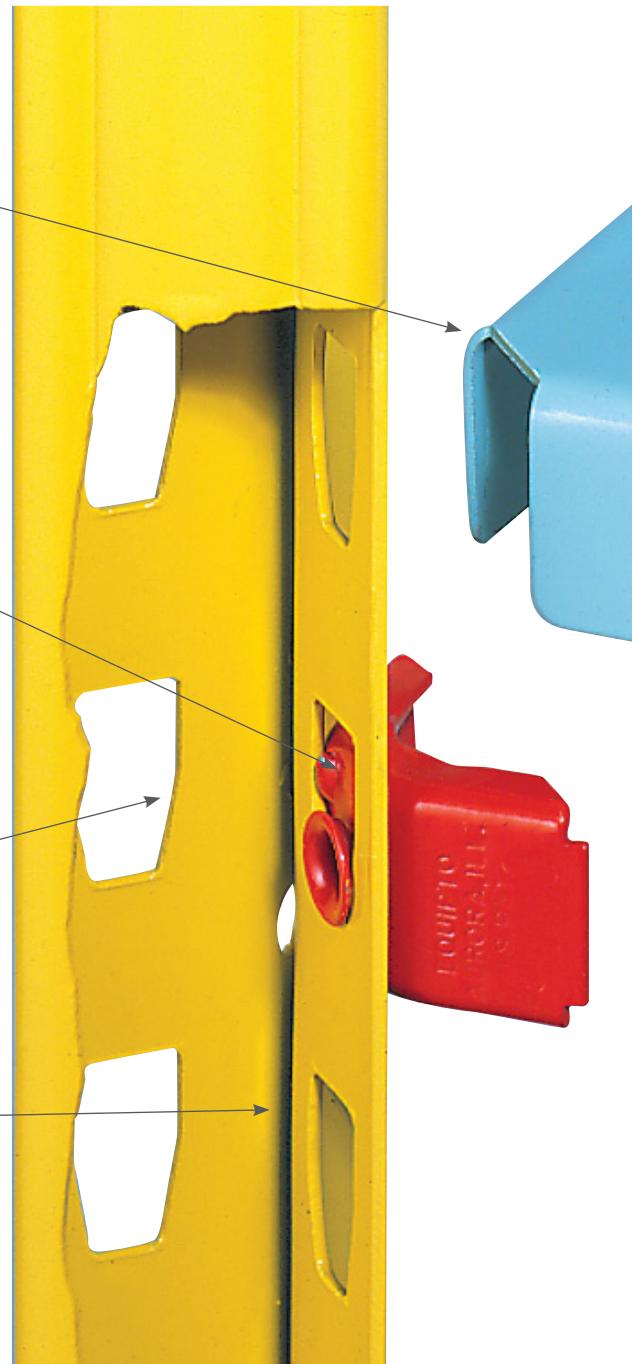

Permit practical back-to-back assembly of shelving units, with the same, strong reinforcement that actually strengthens shelves and uprights, yet permits their easy adjustment, and features a capacity up to 9000 lbs.

Shelves adjust instantly on 1 1/2" centers, without disturbing shelves in adjoining units.

Corner reinforcement inserts into upright; shelf simply fits down over it, and locks into place.*

Tapered slots in uprights accept corner reinforcements for 4-way shelf support.

Double-flanged upright avoids two shelves from adjoining units placing stress on a single flange.

V-Grip™ Shelving with Drawers

Combining modular drawers with V-Grip™ shelving optimizes flexibility by providing an ergonomic approach to storing a mix of small and bulk items. Placement of drawers between the knees and shoulders reduces the reaching and bending required of conventional storage cabinets, while providing space for bulk storage above and below drawers.

All new part numbers with enhanced 200-lb. and 400-lb. drawer slides.

- 48 different drawer sizes
- 36" and 48" widths
- 18" and 24" depths
- Drawer heights from 3" to 13¹/₂"
- 200 and 400lb. drawer capacity
- Each drawer has individual rigid mounting brackets for 100% flexibility of drawer location
- Drawers available with or without divider sets
- Drawers include handles with integral plastic-covered label holder

GOLD ZONE

The same versatile V-Grip™ design that gives you the flexibility to add wire shelving and lockable cabinets can also be configured so that all your modular drawers are between your shoulders and knees, or "GOLD ZONE". Consequently, there's no squatting, stretching or straining to store and retrieve parts and tools.

*To minimize gap beneath beam as designated above.

The drawer is the same 60"-wide drawer that is used in our modular cabinets. Only 400 lb. capacity is available.

There are **3** restrictions that will have to be followed when placing these drawer bodies in the bulk rack unit.

One, to minimize the gap between the top of the drawer front and the bottom of the beam, a **4-1/2" or larger drawer must** be placed at the top position. **Two**, the light duty beams must be used in the 60" drawer in shelving applications. This is due to the height of the beam. **Three**, spacer beams are required; they will go in between the drawer configuration located approximately 36" from the bottom. #831515-2 comes in pairs assembled like the beams - one in front and one in back. You only need one pair per unit.

V-Grip™ Wire Racks

(1,000 – 1,500 lbs. per tier)

V-Grip Wire Racks provide the ideal solution when storing medium to heavy loads in an environment where air and light flow are important. Wire trusses provide 3-point rigid connection with V-Grip upright post for maximum rigidity without use of sway braces for a cleaner look and easier installation.

V-Grip™ Shelving Components

Designed and engineered for maximum interchangeability, V-Grip™ components carry the quality assurance that has made Equipto the leader in industrial shelving systems. All parts and accessories are designed and produced by Equipto to integrate and form a solid compression fit resulting in a storage system that is guaranteed to deliver years of reliable service.

V-Grip™ shelving components

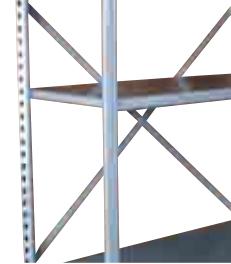

Structural Integrity comes from the integration of Equipto's exclusive V-Grip™ upright post and heavy-duty, compression-fit components.

When ordering V-Grip shelving by component, remember:

- 1) To include 1 shelving end for each section of shelving and 1 shelving end to terminate each row.
- 2) Back sway braces and solid back panels can be shared between back-to-back units.
- 3) Closed shelving ends and solid back panels are finished in standard reflective white paint to enhance visibility in parts storage areas.
- 4) V-Grip™ shelves are heavy duty, 18-gauge steel and are provided with 4 corner clip reinforcements per shelf, which provide a friction fit to V-Grip™ upright posts.
- 5) To link open back to back shelves use 10381 clamps.
- 6) Consult Equipto Inside Sales if you are in a seismic zone.

- Versarack provides the reliability and flexibility of the V-Grip™ upright post and the choice of particle board, wire, or steel deck shelves.
- Fast and easy assembly.
- Ideal for bulk parts, archival records, and back room storage applications.
- Versarack offers easy assembly and clear spans for double-entry units.

Shelf reinforcements provide additional capacity for particleboard and wire shelf applications.

Low profile shelf beams are 1 $\frac{1}{2}$ " high and adjustable on 1 $\frac{1}{2}$ " centers.

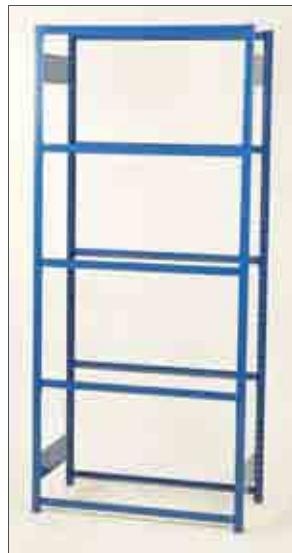

Shelf beams have a 2-point wedge lock connection for maximum rigidity.

V-Grip™ Bulk Rack

EQUIPTO

V-Grip Bulk Rack is designed to accommodate longer spans and heavier loads than conventional shelving. Bulk Rack beams engage V-Grip upright posts providing a rigid connection. Bulk Rack levels are designed to carry load capacities from 1500 lbs. to 3000 lbs. per level, depending on beam span length and deck material used.

The units to the right are shown with optional wire decking for the top shelf and corrugated steel decking unit for the bottom shelf.

- Solid corrugated steel
- Versatile: Use ridge side up or flat channeled surface

Bulk Rack load capacities

Rack Capacities

Rack end capacity is not a factor under most circumstances. However, if you intend to space beam levels unusually far apart, check your plan to insure that the cumulative load on the lower portions of each rack end is within the limits shown on this chart. Rack ends are designed with a safety factor of 1.92. Horizontal beams are designed with a safety factor of 1.65.

V-Grip™ Tire Rack

V-Grip Tire Racks provide a flexible and economical tire storage system. Tire Racks are available in various heights in either a stationary or mobile configuration. Support beams provide a rigid 3-point connection to V-Grip upright post and are adjustable on 1 1/2" centers to accommodate a variety of tire sizes.

Tire racks are adjustable for all passenger car sizes of tires and rims. If you require shelving to fit truck tires please contact Equipto Inside Sales.

Racks hold 7 to 10 tires Each level 15"D x 60"W

All equipment assembles as shown, with cross beams locking into uprights. Beams are adjustable on 1 1/2" centers. All tire racks are furnished with brackets which may be used to anchor to wall or back-to-back. Floor anchors are provided for all starter and add-on units.

Beam-to-Post Connection

Strong, V-Grip uprights with tapered slots accept 3 lugs on each beam end to lock post to beam firmly, without fasteners.

Zip-In Shelving

Equipto's Zip-In shelving is the ideal solution when there is frequent change in the size of items being stored and the ability to easily change the vertical clear opening of each shelf location is a prerequisite. Zip-In shelves simply slide in and out of the unit without unloading or removing adjacent shelves. Back panel is white. End panels are the color of the unit.

Zip-In shelving units provide adjustability of shelves on 1 1/2" centers.

Zip-In shelves adjust easily by sliding shelves in and out of the system.

Sliding dividers attach easily without hardware or fasteners and provide infinite adjustability left to right.

A standard color chart is available at the beginning of each section with a more detailed one on page 141.

Iron Grip® Shelving

The heavier the load the tighter the grip!

Equipto Iron Grip® features the strongest, most resourceful system.

- Quick shelf placement without tools; just a simple, solid steel stud at every shelf corner.
- Independent unit concept is engineered for strength, and is infinitely adjustable for custom fitting to your specific needs.
- Iron Grip shelving provides superior strength for heavy applications
- Add drawers, dividers, bin fronts, bases or doors for your specific applications
- The largest upright anywhere, with a heavy gauge stud in each shelf corner which locks a double thickness of metal together
- Stud grip increases as additional weight is added to shelf

Heights: Iron Grip shelving units come in 84" height, 38^{5/8}", 43^{1/8}", 60", 72", 96", 120" and 180" high units are also available. Any other heights by special order.

Specify desired height; we'll provide a prompt quotation.

PLEASE NOTE: This shelving is not interchangeable with V-Grip.

Superior Iron Grip strength automatically provides crucial 4-point reinforcement to shelves.

The tapered stud engages a sloped, key-shaped hole in the upright for instant binding strength.

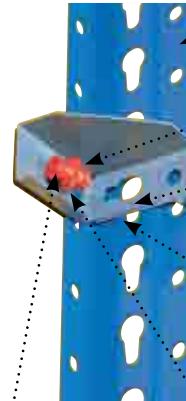

Built to last. Studs are plated; other parts have oven-baked enamel surfaces, and all formed from prime rolled steel.

Durable 18-gauge shelves feature box-formed edges on all four sides. Adding 13-gauge, U-formed channels (3/8" x 13^{3/32}") provides extra strength reinforcement on heavily loaded shelves. For heaviest use, also add end and center channels. Angles (1" x 1") made of 1/8" thick carbon steel provide optional reinforcement at the ends.

High visibility panels

Equipto furnishes high visibility white back and end panels on Iron Grip shelving units, regardless of the color of other. Standard color on Iron Grip shelving is office gray with white panels. Optional decorator colors will also be shipped with white panels unless you specify otherwise.

Part No. 10392

- 1" x 2^{3/8}" uprights (13 gauge), are the largest anywhere. Side embossing adds even more strength and rigidity to the unit
- Iron Grip shelf studs allow adjustment of shelves instantly on 1^{1/2}" centers
- Front and rear shelf flanges extend around the sides past keyhole. Steel stud binds both flanges to upright
- Dividers adjust on 1" centers with Speedy clips on 36" wide shelving (3" centers on 48" widths)

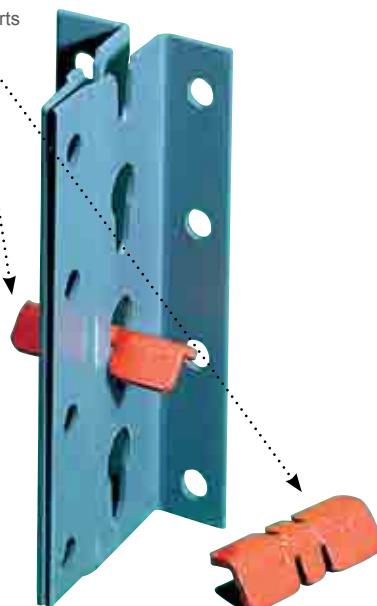

Shown in color for clarity, parts are actually zinc plated

Iron grip key

Fasten any two shelving units together quickly and easily. Easy-access keys remove just as simply, allowing rearrangement of any unit without disturbing adjacent units

U.S. patent No. 2,824,775

Use Iron Grip shelving in a variety of configurations: free-standing; side-by-side; back-to-back; or arranged in efficient work centers. Each shelf unit has four uprights.

Part No. 10394

A standard color chart is available at the beginning of each section with a more detailed one on page 141.

- Reinforced shelf capacities up to 2000 lbs. per shelf
- Non-reinforced shelf capacities of 700 lbs. per 36" W shelf
- Remarkable Iron Grip strength
- Modular system allows quick adjustment of individual shelves as well as units
- Largest, sturdiest upright anywhere
- As the shelves are loaded, the unit strength increases
- Reflective white back and end panels are standard, regardless of shelf color

Economy Shelving

Equipto Economy Shelving is available in either open or closed styles and is ideal for cost-effective storage of packaged goods or bulky items. Economy Shelving is not interchangeable with V-Grip or Iron Grip. 20-gauge shelves are supported by adjustable compression clips, have multiple edge bends for strength and can support up to 450 lbs. of evenly distributed load. Shelves can be height-adjusted in 1" increments.

Pre-engineered 5 shelf starter units are available with shelves in 36" and 48" widths and 12", 15", 18" and 24" depths. Unit heights are 75" and 87". 5-shelf starter units can be expanded with any number of 5-shelf add-on kits, now or in the future.

Specific to only Boltless Storage Rack shelving.

These do not fit other Equipto shelving with particle board shelves.

A standard color chart is available at the beginning of each section with a more detailed one on page 141.

Bar Racks

Equipto Bar Racks are ideal for storing long and bulky parts as well as pipes. Each arm carries 325 lbs. Choose 3', 6' or 8' widths, to support parts as needed.

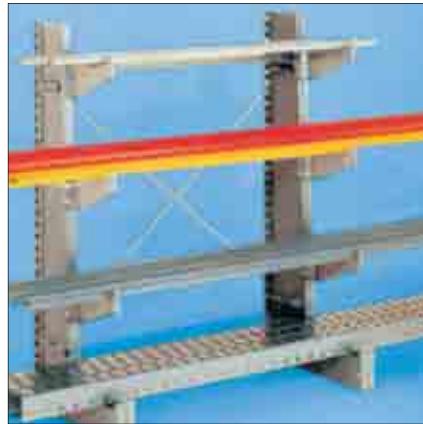

- Specialty bar racks
- Single or double face
- Two heights, three widths, two depths
- Use individually or in rows
- Shelves optionally available.
- Capacity 650 lbs. per level

Bar Racks are the effective answer to organizing steel — or any other items that don't need shelf support. Slotted angle, pipe, tubes, bars — Equipto Bar Racks hold them all. With no wasted space and absolutely simple access.

Note: Be sure to order a rack end to finish each row.†

Shelves (12" x 36") fit between rack arms to hold long and short products in same unit.

Single-faced rack with end can be used free-standing to hold slotted angle, pipe, bars, etc.

Why try to maneuver those special items in and out of shelving, when they don't need to be there in the first place? Solid steel Equipto Bar Racks are specially designed for just those items. Single or double-face bar racks in a range of heights and widths can be used individually or in rows. You can even add a shelf here and there for items too short to reach between rack arms.

Modular Drawer Cabinets

Organize everything from the smallest hardware and jewelry to large motors and sporting equipment. Every heavy-duty Equipto Modular Drawer Cabinet is engineered and manufactured with exacting precision for years of rugged use. The optional lock keeps your items secure. Utilize "more than one drawer accessibility"

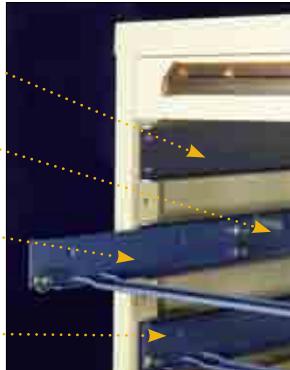

Industrial, Military, Educational, Institutional, Automotive; no matter what your application, Equipto modular drawer cabinets save space, time and money!

Applies to 30" and wider cabinets

- Organized
- Fast retrieval
- Save time
- High density
- Rugged 12 gauge steel frames
- Up to 400 lb. drawer capacity
- Protect valuable tools
- Centralized control of equipment
- No assembly
- Custom units
- Cabinet lock and key are optional (pg. 62)

Each drawer is ribbed and slotted (3/4" centers) over the length and width of the drawer. Convenient numbered spacings simplify installation of partitions, and label holders permit quick identification of drawer contents. When fully extended, 100% of the drawer clears frame to allow unobstructed viewing of entire drawer contents. The interchangeability of drawer partitions and dividers permits changing drawer interiors easily - as you need to, and in unlimited patterns.

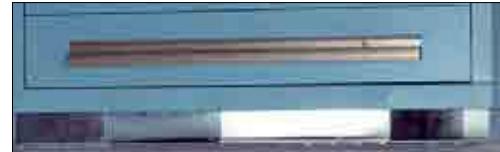

10-gauge side channels form a solid rail for mounting drawers.

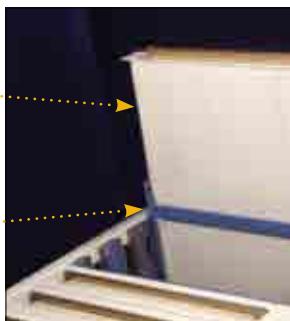

Two positive-gravity stops riveted to each drawer carriage.

Adjustable channels permit flexibility in drawer arrangements and heights.

Independent, full extension carriage for each drawer; when fully extended, 100% of drawer clears frame.

"Z" shaped tracks on drawer edges are welded and wrapped under drawer bottom for superior durability.

An integral fork lift base consisting of two 1^{3/4}" x 6" lifting channels arc-welded to the frame itself, permits inserting truck forks into wide channels for safe, easy transport of cabinets - even when fully loaded!

Drawer suspensions glide on 6 ball bearings and 4 steel idler rollers to assure smooth, easy operation.

Anchor bolt

These bolting options allow you to anchor a modular drawer cabinet to either concrete or wood floors.

Leveler Kit

Part No. 10067 - 2 per lift channel required

Equipto announces a leveling feature for modular cabinets. Developed for applications where floors are uneven, the leveling device provides 5/8" of vertical adjustment with a 15-degree swivel foot offering optimum stability. Rated at 1,500 lbs. of static loading, each leveler can accommodate the most stringent loading requirements.

Partitions

Ribbed and slotted partitions fit neatly into drawers, running full depth of drawer from front-to-back or full width from side to side. Adjustable in 3/4" increments, they may be used alone, or with dividers. Metal screws supplied for fastening to drawer bottoms. Since 30"-wide drawers are symmetrical, partitions may also be used from side-to-side.

Support Brackets for Modular Drawer

Modular drawer support brackets attach easily to side panels of any EQUIPTO modular drawer to permit up to four loaded NC tool trays.

Modular Drawer Option

For larger NC tools with greater height than can be accommodated in standard module drawer cabinet units, simply order "open" cabinets and add drawers as needed. Swinging doors provide a finished appearance, plus single-lock security for contents.

3 1/8" High shelf drawers

One-piece construction with curved handle, reinforced fronts; label holders (full-width on fronts) on both drawers and dividers; embossed bottoms for easy sliding; front and rear drawer stops for pull out, tilt down part retrieval. Insert individual drawers and small cabinets in shelving; stack cabinets high and wide — along walls — back-to-back for partitions — or in rows.

Hundreds of combinations are available for inserting drawers and drawer cabinets into existing shelving (individual drawers shown here.) For example, arranging #8539, #8563 and #8566 drawers in 8-across, 4-across and 3-across patterns converts 36" wide shelf to clean, safe drawer units. Create in-shelf drawers wherever you need them, without replacing existing shelving.

45/8" High shelf drawers

Equipto construction is strong enough for smaller units to be hung or stacked anywhere.

Larger units form convenient countertop work surfaces or efficient wall systems.

Consider these quality Equipto features; sturdy, one-piece construction with top 2" double thickness steel; built-in, curved handle with full-width label holder; drawer stops both front and rear; adjustable, lock-in dividers with label holders.

Then consider versatility: Insert single drawers and smaller, welded-frame cabinets (34 1/8" width) directly into shelving. Stack or hang shorter cabinets anywhere. Use taller units, as free-standing structures.

Insert drawers into your existing shelving in various combinations, #8561 (6-across), #8564 (4-across) and #8567 (3-across) illustrated here. Drawers and small cabinets fit easily between uprights and sit securely on shelving.

Design Benefits & Features

Modular design facilitates easy assembly, allowing future reconfiguration and expansion.

Mobile carriages are rated to carry a maximum of 1000 lbs. per linear foot.

Mechanical-assist controls enable operator to move 10,000 lbs. with minimal effort.

All-track drive ensures uniform movement of carriages.

Modular platform provides for re-leveling rails after installation.

Accommodates all versatile V-Grip shelving and rack components.

Space Utilization Advantages

Avoid the cost of new construction by doubling storage capacity in the same footprint.

Free valuable floor space for other operations without sacrificing storage capacity.

Integration with V-Grip maximizes flexibility to store small and bulk items together.

Market Applications

Manufacturing - maintenance, parts, supplies, R&D, tool room.

Automotive - archival records, parts departments.

Healthcare - pharmacy, maintenance, supplies, radiology.

Education - athletic equipment, maintenance, supplies.

Military - parts/supplies, maintenance, vehicle service, flight maintenance, weapon racks.

Law enforcement - property and evidence, supplies, uniforms.

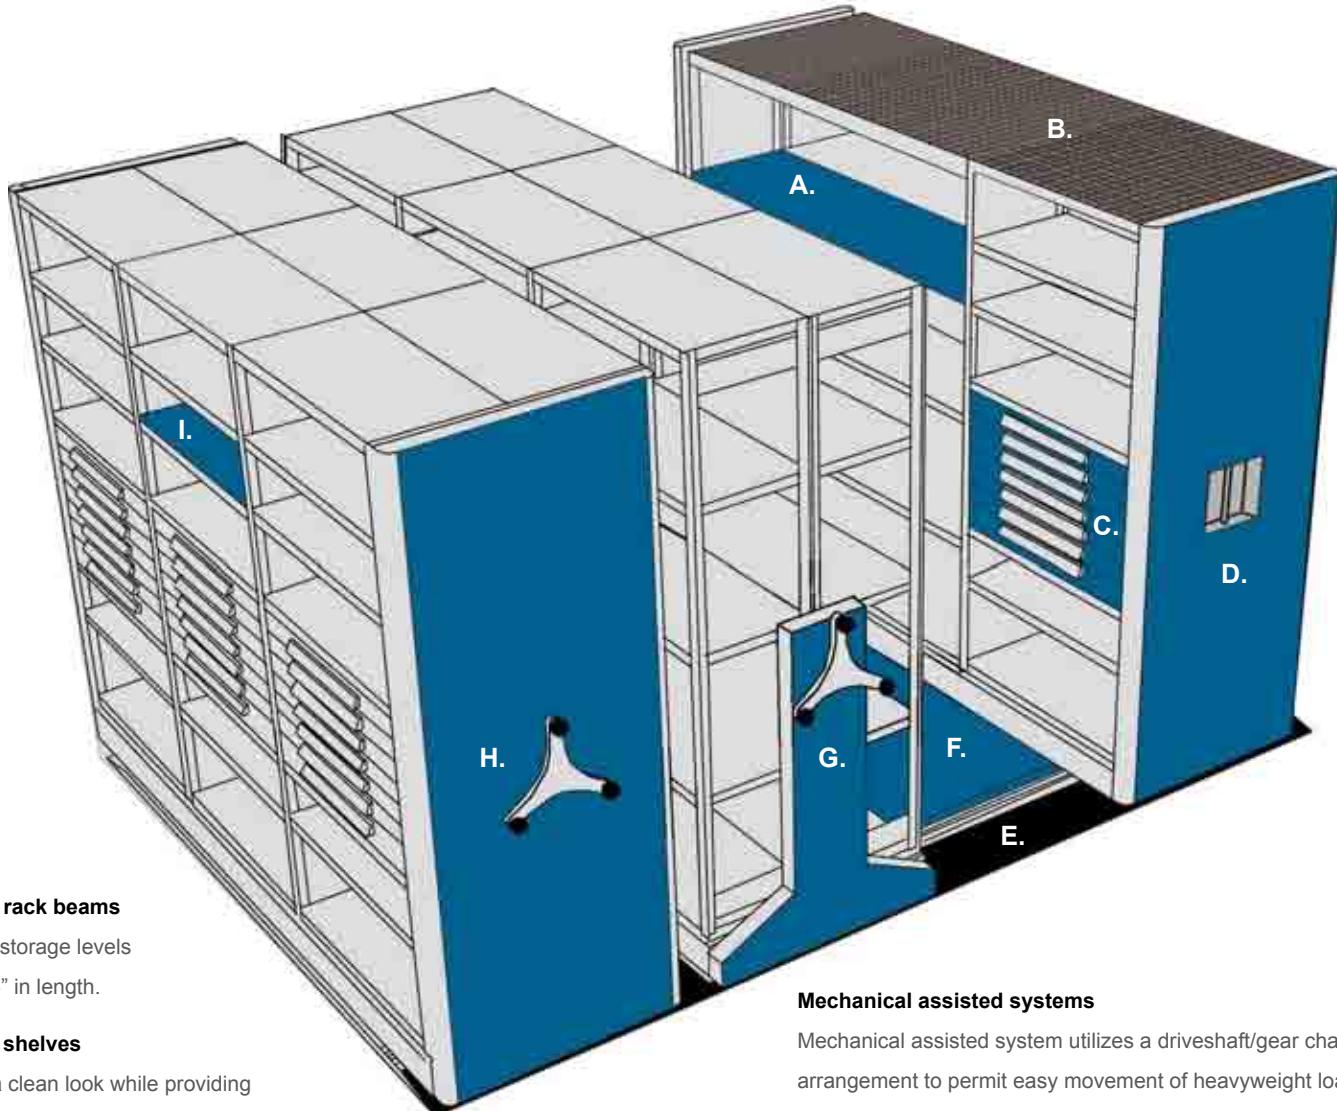

Retail - backroom storage, supplies.

Museum - artifact storage and security.

Mobile Aisle Systems

Equipto's mobile aisle system combines the benefits of high-density storage with the flexibility of V-Grip Shelving, modular drawer and bulk rack. By reducing the number of

access aisles, you can save as much as 50% of your floor space or double your storage capacity in the same space you are currently using.

A. Bulk rack beams

provide storage levels up to 96" in length.

B. Wire shelves

Keeps a clean look while providing optimum flow of air and light.

C. Modular drawers 18"D & 24"D

in 48 standard sizes and 200 or 400lb. capacity.

D. Manual drive system

grab and pull function.

E. Ramp

available in standard 12" or 24" to accommodate ADA requirements.

F. Modular platform

surface mounted, leveled tracks and choice of decking.

G. Open/Mechanical style drive column

cost effective while providing greater visibility of items stored in the mobile aisle system.

H. Closed/Mechanical style drive

requires a minimal effort to move 10,000 lbs. of load.

I. Heavy duty wire or solid shelves

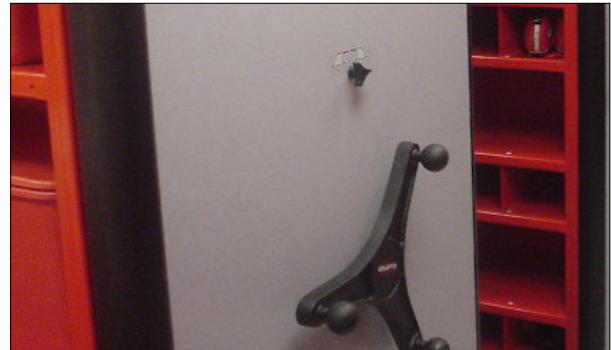

J. Fixed Carriage (not shown)

are mounted directly to the tracks or put on the floor using raised foot brackets.

Mechanical assisted systems

Mechanical assisted system utilizes a driveshaft/gear chain arrangement to permit easy movement of heavyweight loads. Carriages are operated mechanically by means of an exclusive ergonomically designed hand wheel which prevents snagging clothing. It requires less strength and energy to operate. It's as easy to turn as the power steering in your car.

A locking feature can be added for extra security.

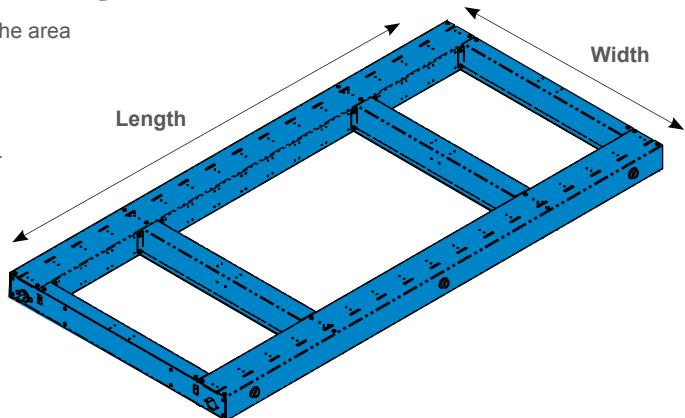

Designing your Mobile Aisle System

Every Mobile Aisle is a customer specific engineered product. A basic sketch of the area and mobile aisle system should be provided, indicating the overall dimensions of the area or room, including doorways, columns, and other obstructions.

Please provide basic size and shelving requirements to ensure accurate quoting.

Please contact Equipto to have a specific unit built to fit your needs.

1st - Identify your available space and select your carriage size, decking, and shelving

Select the appropriate carriages by width and length

You have 3 options:

- Fixed Carriage
- Manual Mobile Carriage
- Mechanical Assist Mobile Carriage

All Carriages

Available Lengths: (in feet)

3', 4' and 6' to 36' - not available in 5'

Manual Carriage does not exceed 12' length

Decking

Mobile Aisle Units offer two decking options:

- Tuffdeck (standard option - shown in image below)
- Plywood

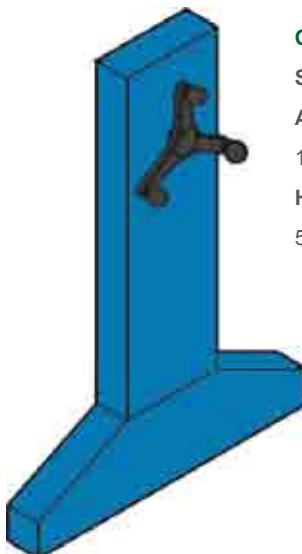

Shelving

Please refer to V-Grip Shelving starting on Page 5 for options.

2nd - Select your Drive Panel

Available Styles: Open and Closed - Open Style Drive Panel is the default selection.

Open/Mechanical Drive Panel

| 42" | 88" | 78138G |

Note: Gate 78138G is made up of two 44" frames. One opens to each side.

Drop gate requires clearance on one or both sides equal to the gates width.

Accessories

Extension posts and stacking brackets

Optional extension posts

Optional Extension Posts (Part No. 9510) permit adjustment of platforms in 2" increments up to 2 feet higher than standard to accommodate tall machines, additional Equipto products, or a sloping floor. Order with original Platform to ensure that proper posts without footplates are provided. Four required for each Platform module.

Platform stacking bracket

Brackets (4 required) fasten upper and lower posts to permit double-decking of same-size platforms.

Part No. 7720 - 4" x 4" x 3"H

Slotted Angle

Equipto Slotted Angle is the frontrunner in creating steel framing systems. Visualize it, cut it, then bolt it. Build structures to do exactly what you want them to do, with almost no limit to the number of ways it can be assembled.

Note: Capacities in the Table above are for angle used as horizontal beams, in lbs. of distributed load. For load concentrated in center of beam, reduce capacity by 50%. Capacities are per pair of beams; All figures are in lbs. of steady load, with a safety factor of 1.67. For shock or lateral thrust, add braces as needed. Where shown, connecting stiffeners should not be spaced over 3 ft. apart. I-beams and other multiple angles should be bolted together every 12".

Platform landing is used for straight through passage with stairway proceeding upward.

For a 90° angle, this platform landing configuration assembles either to right or left.

- Maximize space
- Double or triple capacity without sacrificing valuable floor space
- Building up is more economical and efficient than building out
- Solidly supported by welded uprights
- Precision engineered
- Significantly increased productivity and profits
- Prefabricated platforms designed according to OSHA, BOCA and IBC guidelines.
- 125 lbs. per sq. ft. of uniformly distributed weight.
- 150 lbs. per sq. ft. in seismic zone 0 only

The 180° turn platform is used in tight areas to conserve space.

Pre-configured Mezzanines

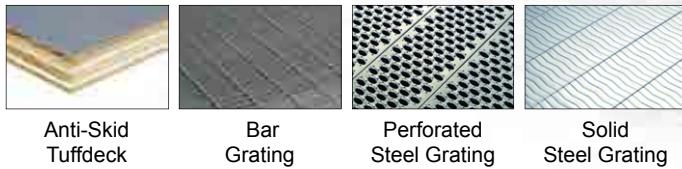

Mezzanines

Need more space, but don't want to move or add on?

Double or triple your floor space with Equipto pre-fabricated mezzanines! These rugged elevated floors, walkways and stairways add valuable area where you need it, at a fraction of the cost of acquiring new buildings. Because of their modular design, Equipto mezzanines are economical, quickly installed and can even be re-configured on your premises as your requirements change.

- Double floor capacity
- Modular design lets you add units as needed
- Less expensive than leasing or Construction
- Relocation to other facilities is easy
- Prefabricated for immediate use
- 36" wide stairway to 4' x 4' landing

Galvanized steel floor grating

Assures non-skid safety for high load capacities, with minimum deflection.

An exceptionally high strength-to-weight ratio makes it suitable for the most demanding jobs with unlimited versatility. Strong, fast to install, and available in sizes appropriate for everything from trench coverings to floors for entire Platform structures.

NEW Ship's Stairs and Bridges

Equipto's Ship's Stairs provide safe, multi-level access up or down to platforms, roofs, platforms, pits, trenches and wells. Extended hand rails and non-skid treads provide added safety.

- New hand rail design
- Ideal where space is at a premium
- Deep, non-skid treads provide firm footing
- Wide hand rails (2 $\frac{1}{2}$) extend 42" above top stair tread
- Coordinate with many other Equipto products

Note: The actual floor height is dependant on material being used for the flooring of the platform/landing. Add the following to "Flooring support height" for:

Bar grating - 1"
Perforated/solid grating - 1 $\frac{1}{2}$ "
Tuffdeck - 1 $\frac{1}{8}$ "
Tuffdeck & roofdeck - 2 $\frac{1}{4}$ "

Workcenters

Equipto workcenters provide years of useful, rugged and efficient space utilization. Select from wall mount or free-standing units, with or without drawers, and the largest variety of accessories to take advantage of your work space. Equipto's extensive line of workcenters organize your work areas to make you more productive

- Modular Drawer Cabinet workcenters maximize storage density
- Closed and Pedestal Leg workcenters keep tools and parts out of sight
- Open Leg workcenters provide economical work space
- Tech Bench workcenters offer a modern answer for keeping reels, hoses, manuals and computer monitors neat and organized
- Equipto workcenters make flexible use of drawers and cabinets

Mobile workcenters can be easily moved and configured to create a custom designed work area.

Closed leg workcenters give service bays a uniform, streamlined appearance.

Tech Bench Workcenters

The Equipto Tech Bench combines essential service facility equipment and Hi-tech storage functionality to organize every aspect of a technician's workspace

EQUIPTO
TECH BENCH

Concealed reel holder compartments, sliding lift control drawers and retractable cabinet doors provide a professional, streamlined appearance.

Lift Control Drawer

Provides hidden compartment to mount the lift control power unit and easily slides out to provide quick and convenient access for servicing.

Lower Bench Cabinets

Neatly organize and conceal reel holders for air, water and lubricants behind removable sliding cabinet doors. Prevent dirt, trash and debris from collecting and obstructing reel unwinding and rewinding.

Monitor Enclosure

Offers eye-level storage compartment for service computer monitor. Retractable keyboard tray adjusts to individual user level and is center mounted under the monitor enclosure.

NC Tool Handling System

Equipto presents a simple solution to the handling and organization needs of the modern NC machining center. Here is a specially designed system to speed transfer of costly NC tools, with dollar-saving protection at every step. Watch your turnaround time drop and machine downtime practically disappear with these sensible integrated components.

- Speeds your work flow as it protects your NC tool investment
- High-capacity, unitized steel frame with rugged handle
- 800 lb tool capacity
- Pre-set tools can be kept in their programmed sequence at all times
- Accessory end trays and shelf units provide space for auxiliary tools and supplies
- Recessed and angled tray handles for easy loading/retrieval
- Everything is in clear view, organized and accessible
- NC tool trays can be secured in modular drawer cabinets or shelf units
- Transport to and from machining centers, sharpening/calibration stations, and tool rooms is simpler, safer and more efficient
- Two integral pallet channels permit easy fork truck handling of cart, empty or loaded
- Big, 5" wheels (two swivel, two stationary) allow smooth rolling on any surface

End Tray

Two shelf unit attaches to end of cart; shelf bottoms lined with rubber matting to protect tools.

Military Storage Systems

Design Benefits & Features

Full height cabinets.

Specially designed for weapons and military security.

Rigid cabinet frame and sturdy hinges provide maximum durability.

Capacities of over 400 lbs.

Expandable and customizable.

Heavy duty.

Space Utilization Advantages

Cabinets provide convenient, attractive, secure storage.

Internal components including shelves, saddles, bins and trays adjust on the fly.

Broad selection of components offer exact storage solutions.

CONNEX Modules

An EQUIPTO Connex Module is designed to organize your storage container, however, that does not limit your use. When you are finished using the Connex Module in a storage container, you can easily relocate the Module for additional storage into Bench Stock, Parts Room or a Tool Room.

Once you have decided where to install the Module, EQUIPTO offers endless opportunities to expand your storage horizons. Looking for additional storage capacity in the same area, your Connex Module can evolve into a Deck-over Mezzanine Structure or a High Density Mobile Aisle Storage System.

All Modules are 20' long with shelving units at a depth of 24" and a height of 90"
