

Standard Sizes

Lift-All Forklift Sleeves help to protect your loads from damage caused by the sharp edges of forklift forks. These sleeves are made from heavy duty Webmaster® 1600 polyester webbing, easy to install, economical and long-lasting.

Features and Benefits

- Soft Webmaster® 1600 polyester sling webbing cushions load to avoid damage
- 12" long rear flap protects load from vertical member of fork to avoid damage
- Retaining straps keeps sleeve on fork, saving time
- Quick and easy to install
- Sewn-in reinforced tip available to prolong life of sleeve, saving you money

Standard Sleeve
